

HUNTER

POSTGRADUATE MEDICAL INSTITUTE

HPMI NURSING CPD

OVER 75 HEALTH ASSESSMENT

Course Content

By the end of this session, participants will be able to:

- Enhanced understanding of normal vs pathological ageing.
- Increased confidence in recognising complex geriatric syndromes (frailty, cognitive impairment, polypharmacy, falls risk).
- Improved clinical skills in conducting focused geriatric assessments within general practice.
- Practical strategies for managing multimorbidity and complex older patients.
- Clear guidance on when and how to escalate concerns to the GP or refer to external services (My Aged Care, ACAT, allied health, geriatrician).
- Greater ability to identify medication-related risks and contribute to deprescribing discussions.
- Strengthened communication skills for discussing sensitive topics with older patients and their families.
- Better knowledge of current best-practice guidelines in geriatric care, cognitive screening, and falls prevention.
- Increased awareness of community supports, aged care pathways, and service navigation.
- Opportunity to clarify real-world clinical questions through discussion with a geriatrician.
